ATARI ST

LIBERATOR - ATARI ST (COLOUR ONLY)

LOADING:

To load program turn on the system, place the disk in drive and access disk, then Boot in file "LBERATOR. PRG" by depressing your mouse button twice with arrow positioned over file name.

The program will now load automatically.

CONTROLS:
- JOYSTICK
- S = SOUND ON/OFF
- P = PAUSE GAME
- EXTRA LIFE EVERY 1000 POINTS.

Guide your T.H.G.C. (Tactical Hover Gun Craft) through the enemy controlled terrain to free the imprisoned Federation members.

GAME PLAY - Fire at the Aliens that descend on you from all directions, hover over the Ammo boxes to replace your spent ammo. A maximum of 90 bombs can be held at a time.

On reaching the prison cell fire at the cell gates to release the Federation members.

To teleport to the next planet dodge the Time Space Gates until you see the flashing gate, fly into this one, this will then take you to the next Planet.

If you fail to hit the right gate you will return to the same level.
